PRESENTATION OF THE BRAND ●●●

REAL WINE CELLAR SPECIALIST

Avintage has teamed up with the the largest kitchen specialists in Europe to allow you to look after your finest bottles. You are sure to find the ideal wine cellar in our wide range of models. All our products have been designed to meet the latest market trends, with a focus on bottles and wine cellars that fit perfectly into today's kitchens.

KNOW-HOW

When choosing your wine cellar, you may keep in mind you will be entrusting it with bottles that you will patiently collect and which represent a real emotional and economic heritage: their total value can in fact far exceed the appliance purchase... And this value increases over the years!

It is therefore essential to entrust your wines to true wine cellar specialists who offer products perfectly adapted to your requirements.

PERFORMANCE, CONTROL AND QUALITY STANDARDS

The quality of AVINTAGE™ products is a permanent process. AVINTAGE™ factories are certified and meet the strictest standards. The products are subjected to tests and inspections on all functional aesthetic aspects according to precise protocols.

A PRIVILEGED RELATIONSHIP WITH ITS DISTRIBUTION PARTNERS

Because service matters to us, AVINTAGE™ operating parts benefit in France from a two-year warranty including replacement parts and on-site repair work.

Are you a kitchen designer or an AVINTAGE™ partner ? Then you can take benefit of specific optional warranties: you have the possibility of extending your 2 years warranty up to 5 years, with replacement. Interfroid Services, our partner in France, oversees the management of spare parts for the 5 years after production and for the entire warranty period. Its network of more than 150 technicians allows us to intervene quickly in France within a few days. Even beyond the borders, you have a service department that is insured by our European distributors in their own territory.

The storage in France of spare parts and accessories gives you the certainty of always having something to change or add as soon as possible time limit. Internationally, the warranty is governed by the rules of the territory. Please contact your local distributor or kitchen designer for more information about your product warranty.

THE BUILT-IN SERVICE CELLAR

What could be better than enjoying a wine in the best conditions?

Avintage offers you a complete range of ultra-quiet service cellars specially designed for your kitchen so that you always have bottles close at hand and at the right temperature. Single, double or triple zone models, from 8 to 97 bottles, fit perfectly into your kitchen.

Avintage combines performance with elegance !

AVINTAGE X VINOTAG

All AVINTAGE wine cellars are compatible with Vinotag®, the wine cellar management application.

This application allows you to establish your digital wine library in real time ; to be alerted of the stock level and the peak dates of your favourite wines; to access detailed wine files by simply taking pictures of the bottle labels thanks to our partnership with Vivino®.

**REGISTER OF YOUR
WINE LIBRARY**

**STOCK ALERT AND

THE AGEING CELLAR

With its history and knowledge of the world of wine, Avintage offers ultra-sophisticated products that will replace the best underground wine cellars in the world.

The wine cellars of the DIVA EVOLUTION range are all equipped with touch-sensitive control panels allowing CLIMACONTROL® electronic management by LCD display of data such as: hygrometry, temperature, lighting mode, winter system, alarms.

BUILT-IN COLUMN

PRESENTATION OF THE RANGE

Service wine cellars are generally used as a relay to a larger ageing wine cellar in the cellar, the scullery or the garage. Your bottles remain within easy reach !

Because people often want to keep different wines on hand, AVINTAGE service wine cellars fit perfectly into gourmet kitchens and preserve wines at a uniform temperature.

Thanks to their wide range of settings, you can keep your bottles at the perfect tasting temperature. Discover all our products, classified by height (called Niche).

PRESENTATION OF THE RANGE

AVINTAGE equips its entire range of under counter wine cellars with discreet handles under the worktop. The doors of our wine cellars will easily adapt to any kitchen style.

These built-in or under counter wine cellars have the dimensions and ventilation systems designed to fit into the kitchens of leading European manufacturers.

With their independent compartments, AVINTAGE wine cellars leave room for all desires. Each compartment offers the bottles a dedicated temperature, to make their tasting an unforgettable experience. Discover all our products, classified by width.

SMART INSTALLATION

Our products are designed and imagined to facilitate technical and aesthetic integration in all kitchens.

RECESS PLINTH

The recess plinth of our 30 cm and 60 cm products is perfect for alignment with the plinths of furniture in all kitchens.

RECESS PLINTH

REMOVABLE PLINTH

For an even more discreet integration, the plinths of our under counter products are removable and can be replaced by any common perforated plinth.

REMOVABLE PLINTH

PLUMBING PASSAGE

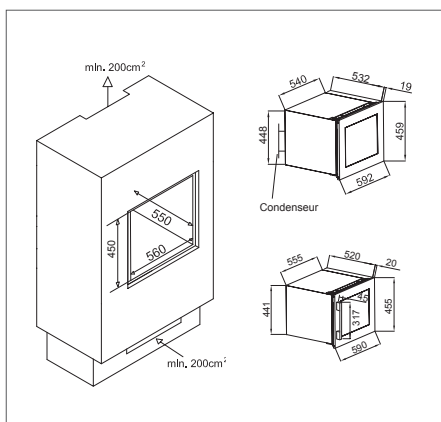

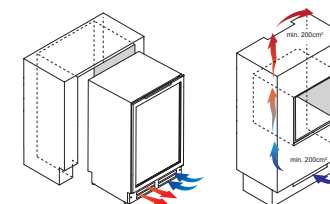

Don't waste any space and make it easier to fit in thanks to the plumbing passage at the back of our cellars.

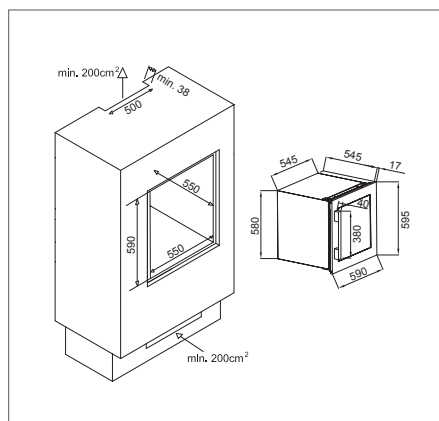

PLUMBING PASSAGE

INSTALLATION DRAWINGS

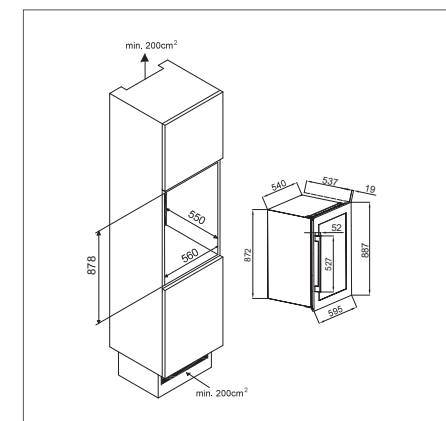

For the proper running of your under counter wine cellar, it is essential to leave an open front ventilation. The ambient air enters through the front ventilation grill, then turned into warm air when it comes in contact with the appliance, and is pushed again to the front. Of your built-in-column appliance, it is imperative to provide top and bottom ventilation. NEVER BUILD IN A FREE-STANDING CELLAR.

¹ Capacity defined as an indication with 75cl bottles of Bordeaux tradition. The addition of shelves considerably reduces the storage capacity.

² For the DIVA range of products, it is possible to order models with the door opening from right to left (handle on the right).
