

S-BOX™

POP-UP SPICE-BOX

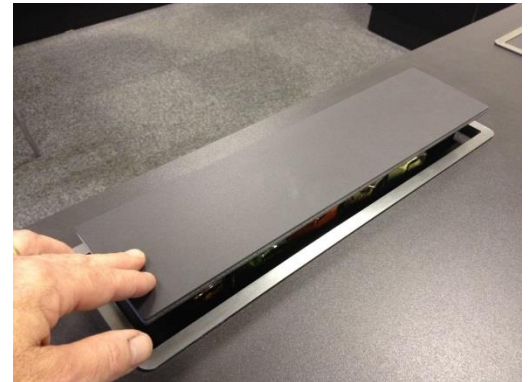

Product includes 10 storage jars as shown, but not contents.

This Herb and Spice Box features a two-shelf unit containing five airtight spice jars on each.

Both shelves have a front lip to prevent the jars from falling forward, and also feature a washable rubber grip mat.

Users can duly fill the storage jars with their own favourite herbs and spices.

A wide range of self-adhesive labels are readily available on the high street, or on-line, to enable each jar's contents to be named.

The option to 'customise' the top is built-in to each unit

Every S-Box™ Spice-Box comes with a 3mm deep brushed stainless steel top and matching mounting collar as standard. In most designs this works perfectly well. However, to give the designer complete freedom . . . and an *infinite* range of options . . . this top is remove-able so it can be replaced with any alternative (up to 12mm) material.

Surface-mount

(simplest 'custom' method)

Inset

(rebated within 30mm+ thick material)

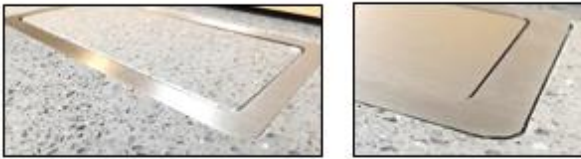

Inset

(sitting on 2nd material below 20mm thick worktop)

WAYS OF FITTING YOUR S-BOX

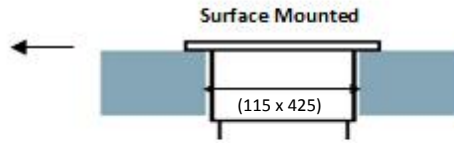

With or without custom top

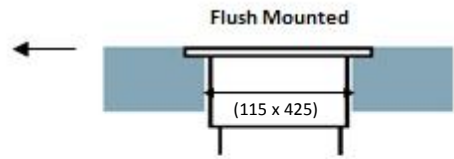

With or without custom top

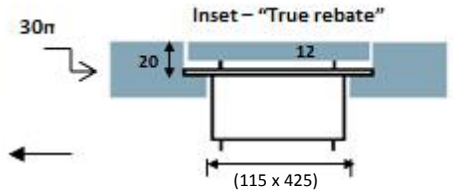

The S-Box™ mounting collar is adjustable to accommodate up to 12mm material, while still allowing for the press down action and collar dimension (8mm) within the 20mm rebate

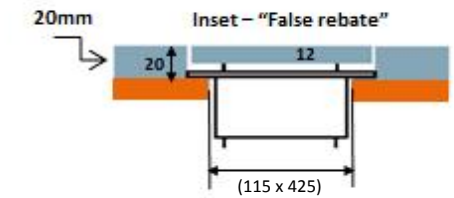

Please note:
IN ALL METHODS INVOLVING A CUSTOM TOP, THE STAINLESS STEEL ONE MUST BE REMOVED FIRST. THE MAXIMUM THICKNESS OF ANY CUSTOM TOP IS 12mm.

Surface Mounted in shallow 2.5mm rebate for a 'flush' finish

Set on 8mm wide rebate at 20mm depth below surface.

Set on 'false' rebate - created by use of a second material below the 20mm one.

NOTE: ANY 'BELOW-SURFACE' INSTALLATION MUST BE AT -20mm

WE RECOMMEND THAT 'CUT-OUT' PROCESS AND/OR ANY ALTERNATIVE 'CUSTOM TOP' SHOULD BE DONE BY YOUR WORKTOP PROVIDER

The S-Box™ has been tested and certified by FIRA International BS 6222-2:2009 to 25,000 operations.
